Sometime back, I told you I would provide some information on the on-site PRPs for the Frost Street Properties. Of the three sites, the vast majority of the contamination was released on the 89 Frost Street property.

Between 1966 and 1973, the Adchem related party, Lincoln Processing, conducted manufacturing at the 89 Frost Street Site. Former employees contend that dry cleaning was conducted on site at this time and between 1-2 55 gallon drums were consumed per month. See Goodman Affidavit attached and Goodman Transcript
